

# **NEW LONDON-WATERFORD SPEEDBOWL**

To: All SK Lite Competitors

From: Mark St. Hilaire

Re: SK Lite Technical Rule #13, Section i

Current Rule Reads as follows:

i) An MSD # 8728 External RPM limiter with a 6400-RPM chip or the MSD #8727CT set to 6400 RPM is mandatory.

New UPDATED Rule reads as follows:

i) An MSD # 8728 External RPM limiter with a **6000**-RPM chip or the MSD #8727CT set to **6000** RPM is mandatory.

This is effective as of 5/12/18
