

## INFORMATION MEMO

**To:** ACT Late Model Participants & ACT Participating Tracks  
**From:** ACT  
**Date:** January 26, 2021  
**Subj:** Hoosier Tire Additional Info

As a follow-up to our previous Hoosier tire memo, we have determined that the overall width of the new tire — from sidewall to sidewall — is 1” bigger than the previous tire. This is due to the wider sidewalls as previously noted. Please contact the ACT offices if you have any further questions.
