You are not eligible for tires from a week that you did not attend and attempt to compete. All tires used at the New London Waterford Speedbowl and entered into a drivers inventory after the first event of the season must be purchased at the track on the day of the event. At no time will your inventory of tires be more than the total number of tires that were allowed when adding up the total of your initial allotment and the total allotment allowed on the event days that a driver attended. It is the DRIVERS responsibility to manage and control their inventory. Any questions regarding your inventory should be directed to the NLWS Tire Inventory Official.
