Attention Teams,

With the events beginning Saturday, July 3rd, tire purchasing limits were implemented to conserve tires and try to ensure that there is some availability for teams. Even with rainouts the tire situation has not improved, nor have more tires become available. While our available allotment is still the same as it was, we now have to make that allotment last even longer while we work with Hoosier Tire on any available alternatives. At this time, we will be making some adjustments to the previous released Tire Purchase Limits, and allotments

Please review the following updates:

- Teams will be limited to the number of tires they are allowed to purchase from the Hoosier tire truck. Effective 8/1/21 the number of tires allowed to be purchased is what is allowed to be registered each week. No unpurchased tires can be “banked” going forward.

Refer to the schedule below for tire purchase limits each week:

- The Hoosier 2040 will be added as a left side tire compound for the SK Modified® and SK Light Modified divisions until further notice. Hoosier Tire East has been authorized to modify tire compounds as necessary as tires become available.
